## Precision Screwdriver Set

- ✓ 6 piece set
- ✓ Bargain price!

Here's a great price on a handy set of nice mini screwdrivers. You get 2 Phillips drivers and 4 straight blade screwdrivers from 1.4 mm to 3 mm. Great for all those new small screws that hold together CD players, handhelds, walkmans and any other small device - hey, did I mention eyeglasses? Geez, you'll pay almost our price for those eyeglass repair screwdrivers you see at the drugstore, but this neat little kit has 6 tools! At this price, pick up a couple to give away to friends; you'll look like a good guy for peanuts!

**\$2.95**

## Helping Hand & Magnifier

- ✓ Built-in magnifier
- ✓ Alligator clip holders

So you're trying to hold that small board, while holding the transistor you're trying to solder in, and holding the soldering iron, and holding the solder. Wait a minute, that's 4 hands! Not a problem! Just clip the board, junction or component you're working on onto the bench holder, swivel it wherever you want it, and go to work! What, you can't see? Even has a built-in magnifier!

**HH3 Helping Hand with Magnifier**

**\$8.95**

## Security Bit Screwdriver Set

- ✓ A real time saver
- ✓ 28 different driver bits!

I'm sure you've run into those weird screw heads. Some are used for security reasons, some are used for production reasons, some are used for no apparent reason! Here's a great little set. Includes Tri-Wing, Torq-Set, Drilled Spanner, Torx, and Tamper Resistant Hex. Includes driver, 28 hardened bits, and handy carrying case. You can't go wrong!

**SS30 Security Bit Screwdriver Set**

**\$9.95**

## Jeweler's Eye Loupes

- ✓ Twin set, 10x and 5x power
- ✓ See up close, really close!

You've seen the jewelers pop these things in their eyes, to check out your diamond ring. That's how they found out it was Cubic Zirconia from the Shopping Channel! Now you can have a set of 10x and 5x loupes to check out your subminiature parts and components or that ring or watch you just received to see if it's fake!

**\$2.95**

## Pro Soldering Station

- ✓ Variable temperature controlled!
- ✓ Made in the US by Weller!

Here's the ideal soldering station for building your Ramsey kit - and for your bench!

Adjustable temperature lets you match the iron to the work for fast reliable connections and what a pleasure knowing you'll never overheat a small circuit trace. If you've never used a good quality soldering station, you owe it to yourself to see just what a pleasure it is to use pro equipment! This is the famous American Made, Weller brand, a name known for years as America's best!

## Technician's Solder

- ✓ Electronics 60/40 electronic solder
- ✓ .032" diameter, 1 pound spool

Whether it's for building your new kit, or just for your bench, this is the perfect solder. Don't destroy your kit investment by using the wrong solder, or solder with low quality flux core. This solder is made exclusively for electronic applications, board soldering, SMT and more. It is 60/40 Tin/Lead and 100% non-corrosive. One pound spool.

## Solder Sucker

- ✓ Eliminate PC board damage!
- ✓ Cleans out eyelets and holes with ease!

For 5 bucks, this will probably be the most valuable tool you've ever bought! Even the most experienced solderer has problems with removing components from PC boards without one! One hand loading, and one hand operation. Just heat up the joint, place the special tip over the joint, and squeeze the trigger. Solder is sucked right from the board and even plated-through holes! It's that easy!

## Panavise Bench Vise

- ✓ Holds PC boards at any angle!
- ✓ Heavy duty base

Trying to solder and unsolder tiny components on small boards can be a challenge for even the most experienced. Here's a gem of a handy vise that is very sturdy and has the flexibility to hold boards at virtually any angle. Includes 2 7/8" jaws and a large base/parts tray with lockable flex joints.

**\$39.95**

## Optivisor Magnifier

- ✓ See those parts with ease!
- ✓ Professional Quality

Probably the handiest helper you can have for working with small electronic parts. Working with today's subminiature components, it's really easy to make a mistake. The Optivisor is your solution! One size adjustable headband tightens around your head. When you need to see a closeup view, simply flip the visor down. When done, flip it back up. It's that easy! Fits over your standard glasses. Same quality as the ones you see your doctor use!
